

Risk Disclosure and Disclaimer

Last Updated: October 19, 2025

This document outlines the substantial risks associated with trading financial markets and clarifies the educational nature of the services provided through the TradersPH Super App (the "App"). By using our App, you acknowledge that you have read, understood, and agree to the terms of this disclosure.

1. High Risk of Trading

Trading in financial markets, including but not limited to forex, stocks, cryptocurrencies, and commodities like gold and oil, involves a substantial risk of loss and is not suitable for every investor. The high degree of leverage that is often obtainable can work against you as well as for you. Before deciding to trade, you should carefully consider your investment objectives, level of experience, and risk appetite.

There is a possibility that you could sustain a loss of some or all of your initial investment. Therefore, you should not invest money that you cannot afford to lose entirely. You should be aware of all the risks associated with trading and seek advice from an independent financial advisor if you have any doubts.

2. Educational and Informational Purposes Only

All content provided within the TradersPH App—including strategies, webinars, courses, articles, and discussions in community channels—is for educational and informational purposes only. It should not be construed as financial, investment, legal, or tax advice. We do not provide personalized recommendations or advice on which securities to buy or sell.
